WRICHT MILL (SITE) - Before 1807 - North side of Wrights Mill Road. This mill, probably the most primitive to survive into recent times in Maryland, was built before 1807 by the "ingenious mill-wright and mechanic", Joseph Evans. Its wooden works resembled designs for automatic gristmills published by Oliver Evans in 1795. Demolished February 1973, along with Katzen's general store.
